TO HELP STARVING CHINESE

Governor Chamberlain, in response to an appeal for aid for the destitute and famine-stricken population of China, by reason of the destruction of their crops and homes by the heavy summer rains, this morning issued a proclamation, calling upon the people of Oregon for contributions of food supplies for the relief of the sufferers of the Orient.

The appeal comes originally from the Famine Relief Committee of Shanghai, through the United States consul, and the President of the United States, who made a similar appeal to the whole country for contributions of aid.

It is represented that in a district about 200 miles in length and 100 miles in width, on each side of the grand canal of China, covering a total area of 40,000 square miles, the crops were almost totally destroyed because of the heavy summer rains, and one-half to two-thirds of the population of ten to fifteen millions of the affected region will be on the verge of starvation during the balance of the winter, and tens of thousands must perish unless relief is given.

"Thousands of homes have been destroyed," says the appeal, "and men, women and children have left their homes to beg elsewhere, and many hundreds are already dying from famine and fever in their desolate and foodless homes, and there is no hope of relief until the ripening of the crops during the coming summer."

Arrangements were completed by capitalists here today for the construction of a large steel plant which will be operated for several years with iron and steel scrap from the ruins of the city. The entire equipment for the plant has been purchased in Pittsburgh, Pa. The plant will be known as the Great Western Rolling mills and will be located at Rodeo, on the ocean front, where the company has secured 100 acres of land. It is believed that the scrap secured from the ruins of the city will run the mill for ten years, but arrangements are being made to take over the scrap supply of the many railroads having terminals in the city in order to secure an unlimited supply of raw material.

MIDNIGHT CLOSING LAW.

Only One Violation Reported to Chief of Police.

At 12 o'clock last night the new city ordinance, providing for the closing of saloons at midnight, went into effect, and every saloon in the city was vacant at that hour. Only one violation was reported to Chief of Police Gibson this morning for failure to comply with the provisions of the ordinance requiring that all screens shall be removed and all obstructions, so as to afford a clear view of the interior from the outside, and Chief Gibson filed complaint accordingly with City Recorder Moore. Recorder Moore referred the matter to City Attorney Condit, who is drawing up the necessary papers. All of the other saloons, it is stated, have complied with these requirements, as near as possible, upon short notice, by having glass panels inserted in their doors and curtains drawn.

DARK HORSE

Being Groomed For President of the Senate

Portland Special: State Senator S. C. Beach may be selected as a compromise in the contest for president of the senate. It is known that there is a strong movement in his behalf, although he has personally taken no hand in the matter since he promised his vote to Hodson.

Late this afternoon or tomorrow there will be a meeting, at which the presidency fight will be canvassed by the Multnomah delegation and senators from elsewhere. At this conference it is expected that the situation will undergo a complete change and a Multnomah man will be decided on.

At present Senator Haines has 12 votes, and is in the lead. Hodson is a few votes shy of this number. The contest is between these two. Haines, although opposed to caucus two years ago, now favors one. Of the 13 votes pledged to Haines, several are only conditional, the condition being that he will receive them providing he will be elected. These tentative votes can be swung to any other candidate who makes an equal showing for Haines, for these votes are held by senators who want to be in the band wagon.

The sentiment in favor for Multnomah having the president is strong and growing stronger. The usual argument is made that Multnomah is the most important county and has more at stake, and, consequently, is most entitled to it. At this time the Multnomah delegation is not a unit. Hodson lather of to him hope rptrok in the support of either Hodson or Haines. Malarkey and Nottingham are supposed to be freelances and not tied to Haines.

Since Hodson's strength appears to be at a standstill, and Haines, although ahead, is not increasing his lead, there is a movement to jump in and select a Multnomah man on whom all the delegation can agree, and such united action would pull several votes from Haines and leave him high and dry. For this compromise candidate the name of Beach has been mentioned. Offers of support have been tendered him by Multnomah men and senators from outside counties. Inasmuch as he promised to support Hodson as long as Hodson remained in the race, he has refused to discuss the possibility of his candidacy. Personally, he advocates a Multnomah man and prefers Hodson, but in the event of Hodson withdrawing Beach declares he is willing to vote for any man in his delegation.

A get-together meeting is now being planned, to take place either this afternoon or tonight, and by tomorrow there are indications of the political map experiencing an earthquake.
